## **BORN LIKE THAT** with Mary

**C**                      **G**  
There's a shadow in the sky  
**F**                      **C**                      **C**  
And I'm feeling oh so high oh so high  
**C**                      **G**  
I know it's gonna pour  
**F**                                      **C**  
A lovely shower who could ask for more  
**F**                                      **C**  
A lovely shower who could ask for more

### **Am**

Raindrops caress me sliding slowly down my skin  
Raindrops caress me sliding slowly down my skin

Starlight in my hair  
I stroll through life and I often swear I often swear  
Walk like that talk like that  
Yes in fact I was born like that  
Yes in fact I was born like that

Green light surrounds me from the streams and from the trees  
Green light surrounds me from the streams and from the trees

In time I know  
Gonna reap just what I sow what I sow  
Third time this week  
Saw a bird with a worm in its beak  
Saw a bird with a worm in its beak  
Third time this week  
Saw a bird with a worm in its beak

## BREEZE BLOWING

C            F        C  
There'll be a breeze blowing in the

G            C            C7  
Space in your mind

F                    C  
The wind will be whistling in the

G            F    C.    C  
Empty space I left behind

F        C            G        C.    C  
Looking forward to the next time around

C                            G        F        C  
Here is hoping a jet stream carries me back to town

The sun will be drifting  
Through the leaves to the sand  
The waves crashing here where now  
You see me standing

### CHORUS

And your music will be missing  
And your days will seem long  
Remembering and feeling  
The last time you heard my song

### CHORUS

And your pillow will be empty  
More space in your head  
Words floating there  
All the things you know I said

## **BUSHEL BASKET**

**A**

Don't jump trains as they roll by

**D**

Don't like the blues and I can tell you why

**E**

Go downtown when I want to smoke

**A**

Treating life like a joke but

I don't go sinning in the neighbors' yard

He's been working mighty hard

When I go out side I don't wear shoes

You already know how I feel about the blues

Carry my rain in a bushel basket

Carry the sunshine too

Carry my rain in a bushel basket

Let the sun shine through

Carry my rain in a bushel basket

Carry my rain in a bushel basket

Carry my rain in a bushel basket

Let the sun shine through

I don't get cross if you smile at me

Throw my troubles out to sea

Don't wear black or need a heart attack

We could be happy how about that

don't think much about what could go wrong

And I'm not going to sing about it in my song

Don't say nothing just shake my head

Lord knows some people would be better off dead

### **CHORUS**

I don't see Saturn when I look at the stars

But I know it's out there and so is Mars

I don't believe what's on the evening news

And I don't want to hear you sing the blues

I don't like ham but I do like toast

I certainly don't care who you hate the most

I don't care that "that 's how it's done" cause

You can give in and still keep some

### **CHORUS**

## CHANGE THE PLAN

**C**

Change the plan Change the plan

**G**

HO yea I'm gonna change the plan

Change the plan Change the plan

BAM BAM got to change the plan

Hit the grounding running That's who I am

BAM BAM time to change the plan

Change the plan Change the plan

HO yea I'm gonna change the plan

Set the dogs running all the way to Siam

Don't even know if I can

Maybe I can't but maybe I can

Lord knows I can change the plan

Change the plan Change the plan

HO yea I'm gonna change the plan

Change the plan Change the plan

BAM BAM got to change the plan

Hit the grounding running That's who I am

BAM BAM time to change the plan

Change the plan Change the plan

HO yea I'm gonna change the plan

Water came down and it took the dam

We all know that it can

Water coming down like a battering ram

Well yea time to change the plan

Change the plan Change the plan

HO yea I'm gonna change the plan

Change the plan Change the plan

BAM BAM got to change the plan

Hit the grounding running That's who I am

BAM BAM time to change the plan

Change the plan Change the plan

HO yea I'm gonna change the plan

## CHANGE THE STATION

**C**            **F**            **C**  
It's another train wreck song

**G**            **F**            **C**  
Weighing the airwaves down.  
The usual part about a broken heart  
And how yours is bound to come around  
Sleepless nights passing the floor  
Usually lead to whisk  
Drinking and driving up all night crying  
engaging in behavior that's risky.

I think its time to change your tune  
Maybe even the radio station.  
You could listen to The Florida Folk Show  
Catch surf crashing

I'm gonna tell you about a thing you could do  
Wash the windows catch a sunrise and vacuum  
Then you could listen for the birds to sing  
Wash the dishes relax and vacuum  
And if it's the vacuum getting you down  
Rip up the rug learn to install hard wood  
Then make up the bed pick up your clothes  
Pick up a broom and sweep

## **CHRISTMAS TIME AGAIN**

It's Christmas time again  
I hear the word give I hear the word give  
It's Christmas time again  
For to give is to give is to receive  
I hear the word give I hear the word give

A new year begins now  
Forgive your self forgive your friends  
A new year begins now  
For to give is to give is to receive  
Forgive your self forgive your friends

Listen to Whompin' Tommy  
When you don't know what to do  
Listen to Whompin' Tommy  
When you don't know where to go  
Listen to Whompin' Tommy  
You don't want to miss his show  
'Cause he's in touch with the man on high  
Oh he's in touch with the man  
'Cause he's in touch with the man on high  
Oh he's in touch with the man

Boldly leading troupes of players  
Out to start the game  
Stand and join the dance around you  
Stand and fan the flame  
One step's a gallop two steps a jump  
Meet one another at the pump  
Around again you bow and curtsy  
Around again you go

Join the church of Whompin' Tommy  
Nothing will be the same  
Join the church of Whompin' Tommy  
You might even change your name  
Join the church of Whompin' Tommy  
You'll be dancing in the rain  
'Cause he's in touch with the man on high  
Oh he's in touch with the man  
'Cause he's in touch with the man on high  
Oh he's in touch with the man

Immediately started wishing I was some other place  
Maybe on the beach looking love in the face  
Maybe on a ship hurtling out into space  
    A shady garden  
    For a potato race  
    A shady garden  
    That would be the place

Things were happening fast when the monkey swung in  
Lord knows I think he was carrying a pen  
Seemed to be taking bets on which side would win  
    Oh my goodness  
    The rising din  
    Oh my goodness  
    What a mess I was in

Now I don't know enough to say what's wrong or right  
But Lord knows I didn't need to see a fight  
And getting it off my mind will take all of my might  
    Maybe love  
    Will set it right  
    Maybe love  
    Will set it right

## DESERT

**C#m G# C#m**

Hear you laughing off a desert hill

Ringling out

the smell of smoke sure

Clings to you

Oh that smoke sure clings to you

**C#m G# C#m G#**

Good times come good times come

Smoke follows beauty to a pool of light

Why don't you

Why don't you write

Songs about that

Why don't you write songs about that

Why don't you write songs about that

Good times come good times come good times come

New day greets the desert night

Touches you

The ground sure is warm

For late fall

The ground sure is warm for late fall

The ground sure is warm for late fall

The ground sure is warm for late fall

## DOLLAR

### G

If I had a dollar tell you what I'd do  
Put it in my pocket walk away from you  
Walk away singing singing  
Walk away from you

Told you from the beginning that is what I'd do  
Walk away singing if you ever made me blue  
Walk away singing singing  
Walk away from you

No I won't miss you and cloudy skies pour rain  
The fields lay there singing soaking up the rain  
Laying there singing singing  
Soaking up the rain

If I had a dollar tell you what I'd do  
Put it in your pocket walk away from you  
Walk away singing singing  
Walk away from you  
Walk away from you  
Walk away from you

Round about noon there was bread and cheese  
A fizzy cold drink and little green peas  
Seems just right for the middle of the day  
Thankful for my lunch  
Thankful to eat

Just after dark we get called in to eat  
A soup made with love potatoes and beets  
Seems like the way to end every day  
Thankful for my supper  
Thankful to eat

Late at night open the fridge door  
Reach right in for a little bit more  
Sure am glad to eat every day  
Thankful to eat every day  
Thankful to eat

Sun has been shining but the lawns not been mowed  
C                    C                    G                    G  
Standing here looking at a pile of our dirty close  
C            C            F                    F

C                    C  
Use my truck as a clothesline  
                  G                    C  
and go flapping down the road

Use my truck as a clothesline  
and go flapping down the road

You think you have me tied down with your purse strings  
You're the one that's tied down in your mamas apron strings  
That's it I quit  
I'm tired of dead wood  
Gonna cut my ties with a chain saw  
and go flapping down the road  
I'm tired of dead wood  
Gonna cut my ties with a chain saw  
and go flapping down the road

when the truck gets low on gas  
I'm going to park her some place nice  
That's it I quit  
Give all my things strap on a pair of wings  
and go flapping down the road  
strap on a pair of wings  
and go flapping down the road

Riding the train riding the train  
Riding the train of love

The tracks were smooth and the seat fine  
Lord they recline  
Gainesville Waldo Jacksonville  
Crossed the state line crossed the state line  
The train rolled on and we stayed on board  
Crossed the state line crossed the state line

The rocking and the motion set it right  
Found the switch to the ceiling light  
We made out rest of the night

Riding the train riding the train  
Riding the train of love

Riding the train riding the train  
Riding the train of love

## FOUNTAIN

### E

I think I've seen that fountain before  
I think I've seen that fountain before  
It was late one night in Barcelona  
Home was in a vaguely easterly direction

I think I'll be getting off here

I think I've seen that shadow before  
I think I've seen that shadow before  
It came to me from Afghanistan  
Carried by the hand of an agent man

I'll think I'll be getting off here

I think I've heard that story before  
I think I've heard that story before  
It takes place in Colombia  
That's where all that coffee is grown

I think I'll be getting off here

Gonna tell you about a trip I'm taking

Someone knows the ambassador and he's calling on the phone

If you want a different future this is entirely up to you

## **GRANDPA**

**C**

Grandpa he was born on Election Day another

**F**

Democrat for the world his papa said

He turned 95 and he's still alive

Slow smile and shining eyes

The moose on the wall at Grandpa's house

Dead for years but it's still the same

I come around every year or two

My uncle drunk ain't that a shame

Grandpa turned 95 the other day

Half his mind but he's ok

The neighbors come around to sing a song or two

And his wife throws his clothes out the back door

I don't understand why they live like that

But with a little less luck we'd a'been there too

**CHORUS**

Blanche will come around at the cocktail hour

With a scotch and water and tale to tell

Basil doesn't know what it is I do

I've told him 3 times but I don't mind

**CHORUS**

He doesn't know what it is I do

I told him 3 times but I don't mind

Grandpa turned 95 and he's still alive

Slow smile and shining eyes

**CHORUS**

Grandpa turned 95 and he's still alive

## PERMANENT HOME

**D**

**A**

He could fly you in an airplane  
He could darn a great big hole in your sock  
Wrap his arms around you  
Warm the night oh oh oh warm the night

Love at first sight over a low fence  
Around the same old corner I'd known all my life  
Cast a line towards me  
Changed my life ey ey ey changed my life

He is an angel both day and night  
See that's him in the foreground with the wine  
Turned straight towards me  
A clear blue smile ew ew ew clear blue smile

My love my love my love my love has grown  
And flown to a permanent home

He fills a space the size of my world  
Now I still feel the first time that he reached  
He reached across and  
Touched my soul oh oh oh touched my soul

My love my love my love my love has grown  
And flown to a permanent home

## PIECES

**Am**

They're tearing down pieces of the Berlin wall

**Em**

And selling them over here on the street

**F**

**Em**

There is a chill crawling over my spine

**F**

**Em**

There is a chill crawling over my spine

There's crack on the street and I can feel the heat

Broken window letting in the cold

They're pulling the wool right over our eyes my friend

They're pulling the wool right over our eyes my friend

Funny how easy it is to buy a gun

But crack is illegal and it's killing my son

It leaves a funny taste in my mouth

It leaves a funny taste in my mouth

The dog needs a walk and the houseplants are dying

The kid wants to talk but he is really whining

Everybody's got something to say I could use some sleep

Everybody's got something to say I could use some sleep

Now is time for the change to occur

Change will bring the others around

Pick a share and carry it down the road

Pick a share and carry it down the road

Hard one day then it lightens the load

The distance is shorter the straighter the road

Hope will get you there in one piece

Hope will get you there in one piece

## QUEEN OF THE SEA

**D**

I am the Queen of the Sea

**G**

Octopussy she belongs to me

**A**

**D**

Pulsin' shimmerin' like the sea

**A**

**G D**

Swellin' throbbin' right next to me

Happened on Halloween

Octopussy she came out to be seen

Pulsin' shimmerin' wet and clean

Swellin' throbbin' she holds with a squeeze

Plenty to eat, plenty of sweat

Plenty of stolen chocolate

Pulsin' shimmerin' now the kids are set

Swellin' throbbin' there are spooks to be met

At the inn was an accordion

Travelers were drinking gin

Pulsin' shimmerin' is it fun or sin

Swellin' throbbin' call it dancing

Then we take a tour of the town

See pearls and chickens frown

Pulsin' shimmerin' disco lights

Swellin' throbbin' beat of the night

I am the queen of the sea

Octopussy she belongs to me

Pulsin' shimmering like the sea

Swelling throbbing right next to me

## ROMEO AND JULIET

**A** **G**

**Dm** **Cm** **Dm** **Cm**  
Just like that the story is read just like that

He was Romeo she was Juliet  
Oh yes it gets better yet  
Together they were better they were lots of fun  
Everyone that knew them thought they were one

### CHORUS

Off into the future they stood together  
Side by side in inclement weather  
She bore him sons and he slayed her dragons  
Hitched together they pulled the wagon

### CHORUS

Right until the end they remained as one  
Even the funeral was lots of fun  
They left two sons that shone that day  
Looks like it all went their way

And when you fall you'll break your neck

And I never heard that tone in my home

If you don't come now I'll leave you here  
I'll whip your ass and leave you here  
And you'll never ever see me again

But what you're doing just ain't right

You might be big and you might be tough

But your hand I will call

Then you'll be mad and you'll play rough

But I will see you fall but I will see you fall

From where I stand I can see

All the ways you're cheating me

Do you even sleep at night

You know that it's a sin

If I don't stand and say what is right

I've let the devil in I'd be letting the devil in

### CHORUS

You know the fastest way to hell

Is when you know the truth but you won't tell

It's not all right to hide behind

The fact that you are small

Stand up tall and you will find

Someone will hear your call the lord will hear your call

Lying on the floor and I didn't know why

Lying on the floor and I didn't know why

Some one there by my side

Bright lights hurt my head bright lights hurt my head

Must have been love sent me down the hill

Looking for Jack looking for a Jill

Must have been love sent me down the hill

This hangover is fit to kill

Just Jane is my name just Jane is my name

Looks pretty happy up ahead

Wish I could lose this pain in my head

I'm feeling pretty good lying here in bed

I'm feeling pretty good lying here in bed

I'm lying here being in love I'm lying here being in love

If you're willing you're forgiven

Where where where where  
Where but we'll be there  
Where but we'll be there

## YELLOW ROSE

**D** **A**  
Yellow rose of Texas is blooming in Wyoming  
**G** **D** **A** **D**  
Half a world away and it's making me blue  
**D** **A**  
She left me in the evening but I'd been crying all morning  
**G** **D** **A** **D**  
I'd seen her downtown with an uptown man

**A** **D**  
Don't be a fool let her go let her go  
**A** **D**  
Don't be a fool let her go

Tell me how it's possible to love someone who's left you  
Spend your time crying over love that never was  
I'll be changing my habits becoming a new man  
I'll call this other girl and I'll hold her hand

### CHORUS

Yes I think it's possible for me to love again  
I know she never loved me even when she was mine  
Lord knows I loved her I'd have done anything to please her  
I'd have changed my name just to see her smile

### CHORUS

The yellow rose of Texas is blooming in Wyoming  
Half a world away and my life has gone gray
